

MAINTENANCE PROGRAM

MAPLE ATHLETIC FLOOR

Care and simple maintenance of your Maple Athletic Floor is vital in extending its life expectancy. Properly cared for, the floor can look great, remain safe, and play like new until it's time to screen and recoat the surface.

DAILY CARE: DUST MOPPING

Dust Mopping is the least expensive and most important procedure to keep a maple floor in top condition. The dust mop used for the gym floor should be used exclusively for this floor only, and the dust mop head should be changed weekly.

Supplies & Equipment:

- pre-treated dust mop
- broom and lobby pan

Procedures

1. Dust mop the floor with a clean, pre-treated dust mop.
2. Remove the dirt from the floor with the broom and dust pan.
3. Repeat process a minimum of twice daily.

BI-MONTHLY: MANUAL & AUTOMATIC

MANUAL

Supplies & Equipment:

- Super Shine-All Floor Cleaner
- measuring cup
- pre-treated dust mop
- broom and lobby pan
- cotton mop head and handle
- wet floor signs

Procedures

1. Complete Daily Care procedures 1-3.
2. Place "wet floor" signs in doorways.
3. Fill the mop bucket up to just below the Finger with water. Add 3oz. of Super Shine-All per gallon of water in your bucket.
4. Damp mop the floor, changing the water and Super Shine-All mixture for every 400 square feet of flooring mopped. Continue mopping.

AUTOMATIC

It's imperative to properly adjust the amount of water flowing out of your auto scrubber. You want just enough water to keep the pad driver saturated during operation. Never turn the water adjustment on the auto scrubber to full open.

Supplies & Equipment:

- Super Shine-All Floor Cleaner
- Auto Scrubber
- pre-treated dust mop
- wet floor signs

Procedures

1. Complete Daily Care procedures 1-3.
2. Place "wet floor" signs in doorways.
3. Fill the Auto Scrubber solution tank with water and add 2oz. of Shine-All per gallon of water.
4. Auto scrub the floor. Remember, when you stop moving any auto scrubber, the brush or pad driver and solution output must be turned off. If you do not turn the scrubber off, you risk damaging your floor.

ANNUAL REFINISHING

To preserve the beauty and life of your maple athletic floor, we recommend that recreational surfaced receive periodic refinishing. Normal wear and tear combined with proper maintenance will determine the appropriate refinishing schedule for your floor. Most gymnasium floors should be recoated annually.

COMPLETE RESURFACING

From time to time, even most properly cared for maple athletic floors should received a complete resurfacing. This will restore the luster in an older gym surface, and assures long life and excellent performance. We recommend resurfacing your floor about every 8 to 10 years. The process begins by sanding and removing layers of finish and game lines down to the raw wood. Next, damaged boards or surface area are replaced or repaired. Once the repair and sanding process is completed, resurfacing begins. Once complete, your gym floor will look as good as new!
